Introduction

The purpose of the data specifications document is to provide a documented approach to data submission by the various member institutions of the Credit Reference Bureau.

Use of a standard approach to data submission ensures that data is loaded in a consistent and verifiable format to further ensure that data integrity is assured by the CRB.

**THIS DOCUMENT THEREFORE
DEFINES THE FOLLOWING:**

- 1. Format of data submission.
- 2. Content of data submission.
- 3. Timelines for the data submission.

Data File formats

1. Format

All data files will be pipe delimited ASCII files, which can be viewed with a standard text file editor (e.g. Notepad or WordPad) or in .csv format.

Each record will be contained in one line of the file, with a carriage Return and Line-Feed combination as an end-of Record marker.

2. File Naming

Each File will be Named in the format of **CRBTTYYYMMDDVVV.BBB** where:

Initial	Description	
CRB	The Initials for Credit Reference Bureau to Identify the File as a file for the CRB use.	
TT	The File Type denoting the Information contained in the file. The following Types are valid File Types:	
	Initials	Description
	IC	Consumer Credit Information
	CI	Corporate Credit Information
	SI	Shareholder Information

	GI	Guarantor Information
	DI	Director Information
	CR	Collateral Register Information
	RD	Bounced Cheque Information
YYYY	The Year of Data submission	
MM	The Month of Data Submission	
DD	The Date of Data submission	
VVV	The Version Number of the File Format used in the Data file (The version number for the first file will be 001 and a resubmission of the same file within the same month will be 002)	
BBB	The CRB Subscriber Code of the Institution making the submission	

3. Timelines for data submission

All subscribers are to submit their data to the bureau on the 10th of every calendar month.

General Field Formats

1. Date Format:

All date Formats are defined on the basis of YYYYMMDD with no date separators included.

Where:

YYYY - denotes the Year
MM - denotes the Month
DD - denotes the Day.

E.g. for a Date of 31st July 2014, the Date shall be coded as 20140731.

2. Amount Field Format

All date Formats are defined on the basis of YYYYMMDD with no date separators included. All amounts will be shown with a decimal Point excluding the currency symbol and any separators.

Where: E.g.

For an amount of RWF 3,125.45, the format will be 3125.45 while RWF 3,125 will be formatted as 3125.00

3. Numeric Field Format

All numeric values are shown excluding separators.

4. Alpha-Numeric Field Format

All alpha numeric values will be represented as available in the source format.
